Malaysian MoH Awards Insulins Supply Contract Extension to Biocon Biologics

Bengaluru, Karnataka, India, May 22, 2025

“Biocon Biologics Limited (BBL) is pleased to inform that the Government of Malaysia has agreed to extend the current contract period of 36 months under the existing insulin supply agreement with its subsidiary in Malaysia, Biocon Sdn. Bhd., and Duopharma Marketing Sdn. Bhd. (DMktg), for an additional six (6) months effective from April 29, 2025 until October 28, 2025.

Biocon Biologics has been the partner of choice for the Ministry of Health for its insulins requirement and has been serving patients in Malaysia for nearly 10 years. The company manufactures a range of recombinant human insulin products at its state-of-the-art facility in Johor, Malaysia. These insulin products are distributed in Malaysia through its commercial partner DMktg. The company was awarded the insulins supply contract for a three-year period in 2022 through April 2025.

The amendment to the contract will be formalised through the execution of a formal supplementary agreement between the MoH, DMktg and Biocon subsequently.

Biocon Biologics is committed to enable affordable access to life saving insulins to people with diabetes in Malaysia and other parts of the world.”
