Generics Q2 FY24

Biocon Generics: Q2 FY24 Highlights

- Performance driven by continued traction in our US generic formulations business and expansion in MoW markets. API business performance muted.
- Announced a partnership agreement with Juno Pharmaceuticals for the commercialization of Liraglutide in Canada
- Acquired U.S. FDA approved oral solid dosage facility of Eywa Pharma Inc.
- Received seven generic formulations approvals across markets. Two API approvals each, received in the U.S. and EU
- Process validation at the Company's greenfield immunosuppressant API facility in Visakhapatnam successfully completed
- Expect sustained performance from the generic formulations and some recovery in API business performance

Biosimilars Q2 FY24

Biocon Biologics

Biocon Biologics: Biosimilars – Q2 FY24 Business Update

- Integrated North America business – seamless commercial operations from 1st September; remain on track to transition Europe, JANZ and the remaining Emerging Markets later during the year
- Good momentum across oncology and insulins; Addition of new customers enables volume growth, accommodating for price erosion
- bAdalimumab (US): adoption of biosimilars slower than anticipated across the market
- Potential to improve EU performance with the completion of transition
- Divesting non-core Dermatology and Nephrology business in India, sharpening focus and aligning it with our global portfolio and strategy
