

Rhonda Duffy

Chief Operating Officer

Rhonda Duffy is the Chief Operating Officer at Biocon Biologics and is responsible for leading our global operations functions, Manufacturing, MSAT, Quality, Supply Chain Management (SCM) and Projects.

Rhonda joined Biocon Biologics in July 2023, and she brings over 30 years of experience in leadership roles.

Rhonda has experience in establishing new functions, bringing new skills and competencies into the organisations she has worked in, and sorting out challenging areas where stabilisation and improved output in quality, supply and performance are required. She has been successful in raising quality standards, adding technology upgrades, stabilising, and improving performance and output in all sites while building new supply chains with external contract manufacturers. She has worked closely with R&D to develop and launch new products. Rhonda has also managed large, diverse global teams across multiple sites and product lines.

Rhonda has worked with Leo Pharma for over 30 years. Most recently, as Executive Vice President for Global Product Supply at Leo Pharma, a Denmark-based global dermatology leader, she led end-to-end product supply operations spanning 6 sites and 30 contract manufacturers, the launch of 2 Biologics and the entire Global Product Supply for the Product portfolio worth 1.3 Billion Euro in sales. Rhonda also spearheaded an ambitious and effective cost optimization program, oversaw a significant upgrade to several global manufacturing sites and built a new US-based external supply network.

Rhonda is a qualified pharmacist with a Ph.D. in Pharmacognosy from Trinity College, Dublin.
