

TURNING CLIENTS' IDEAS INTO MEANINGFUL INNOVATION

Syngene's core capabilities include highly effective problem-solving and scientific innovation, allied to a clear commitment to safety, quality, and operating excellence. It takes an integrated approach to the disciplines of discovery, development and manufacturing of novel molecules to ensure a quality project delivery on time, every time – all with a single-minded commitment to turning clients' ideas into meaningful innovation. Delivering timely, innovative, science, to reach clients and patients quickly and safely.

OUR BUSINESS

Syngene's business is divided into four divisions – Discovery Services, Development Services, Manufacturing Services and Dedicated R&D Centres. Discovery Services conducts early-stage research, from target identification to delivery of drug candidates for further development. Development Services encompasses activities from pre-clinical to clinical trials including drug substance development, drug product development and associated services to demonstrate the safety, tolerability, and efficacy of the selected drug candidate. Manufacturing services for small and large molecules, including cGMP compliant facilities, for clinical supplies and registration batches as well as commercial volumes.

VISION

To be a world-class partner delivering innovative scientific solutions.

Delivering services

With sustained focus on quality, affordable innovation and productivity

Areas of expertise

Works with clients in flexible, adaptable and customised partnership models for both small and large molecules

World class infrastructure

Audited successfully by US FDA, EMA, AAALAC, MHRA, ANVISA, PMDA and major life sciences partners

Over 360+

Active clients including global leaders in multiple sectors. Works with 8 of the world's top 10 pharmaceutical companies

1.9 million sq. ft.*

R&D and manufacturing infrastructure

Driving revenue growth

Maintaining profitability through sound cost discipline and a well-calibrated capital allocation strategy to build value over the long-term

In India on BSE and NSE in 2015

FACTS

Established	1993	Active clients	>360	BD offices	US, Ireland and India
Infrastructure	1.9 million sq. ft. laboratory and manufacturing space	Patents held with clients	400+	Partnering models	Fee for Services, Full Time Equivalent
Services	Discovery, Development and Manufacturing	Top 3 Markets	US (76%), Europe (12%), Japan (5%)		
Values	Professionalism, Integrity, Excellence	Operational footprints	Bengaluru, Mangaluru, Hyderabad	Dedicated centres	4 (Amgen, Baxter, Bristol-Myers Squibb and Herbalife)
Industries we serve	Large and Mid-sized Biopharma, Animal Health, Agrochem, Consumer Goods, Chemicals/polymers				
Certification, Audits, Accreditations	US FDA, PMDA, ANVISA, EMA, MHRA, Ministry of Health of Russian Federation, GLP certification by NGCMA, ISO 27001:2013 (Information Security), ISO 14001, 45001 (Environmental Management System)				

OUR REVENUES

SUSTAINABILITY IN 2020

- 12 million man-hours without LTA
- 1000 KL/month reduction in water consumption
- 27,000 hours – safety training
- 355 MT – solid waste recycled
- 14,943 tonnes – reduction in carbon dioxide

CSR AND COMMUNITY ENGAGEMENT

Focus Areas: Healthcare, educational, infrastructure projects, rural development, promotion of art and culture, gender equality and safety of vulnerable sections of the society.

SYNGENE AT A GLANCE

PEOPLE

- 5000+ employees; >4200 Scientists
- 23% – female employees
- 60,000 man-hours – technical and behavioural training
- Certified Great Place To Work

OPERATIONAL EXCELLENCE

- White/Green belt certifications, Six Sigma, Kaizen and Lean Management

Research, Development and Manufacturing Services

Includes manufacturing of small and large molecules, including cGMP compliant facilities for clinical supplies and registration batches as well as commercial volumes. Dedicated R&D centres offer dedicated multi-disciplinary scientific teams, support personnel and ring-fenced infrastructure as per client specifications to support their R&D requirements.
